The Whigs of Maine (we know there are noble exceptions) have generally, for the last seven elect himself, and only devolve on them the arduous labor of dividing the offices. Perhaps they will find Gen. Taylor the man they want (if they get him), and perhaps they won't. We fancy them looking sheepish next November, in case they should carry their candidate, and he shouldn't carry them according to calculation. Wait a little.

Consecricur.-Rather a curious proceeding Consectious.—Rather a curious proceeding was had in the Connecticut House of Representatives on Tuesday. Mr. Estano of Tolland offered a Resolution for the appointment of a Committee to wait on the Senate, and request a return of the Resolution appointing Roger S. Baldwin United States Senator. His reason for presenting the Resolution was, that the vote upon a motion to postpone the election of Senator for two weeks had been miscounted by the Clerk, who stated the result at 96 for and 101 against the postponement, which was incorrect, as he held in his hand a list of the names of 101 members, who declared by their signature that they voted for the postponement, and four others had made statements that they voted the same way. There was some opposition to the Resolution, but a motion to lay it on the table was leaf, the Committee ordered, and it was appointed on Wednesday.
